INTRODUCTION

Skills Development Scotland (SDS), the national skills agency, is responsible for managing the funding and promotion of apprenticeships on behalf of **Scottish Government**. The SDS Board is responsible for facilitating employer leadership of apprenticeships through the **Scottish Apprenticeship Advisory Board (SAAB)**.

Following recommendations of the Commissioning for Developing Scotland's Young Workforce, the purpose of the Scottish Apprenticeship Advisory Board (SAAB) is to provide employer leadership and contribution to the development of apprenticeships in Scotland; ensuring they are aligned with industry and economic need, Fair Work and job opportunities. This will include Foundation, Modern and Graduate Level Apprenticeships.

SDS is also working with the university sector and the **Centre for Work based Learning** which has a remit to promote the value of work-based learning in the Scottish education and training system. Through its research and development activities, the Institute will support the work of, and be informed by, the Advisory Board.

The Scottish Apprenticeship Advisory Board will consist of five groups as follows:

A Group Board

Includes senior business representation responsible for providing advice and making recommendations on the guiding principles, operational policy, systems and structures supporting apprenticeships in Scotland.

Employer Engagement Group

Includes employer and business organisations and a representative of the Developing the Young Workforce National Group. This group's specific role is to listen, engage and communicate and distil information from employers on matters affecting Apprenticeships in Scotland.

Employer Equalities Group

Incorporates representatives from business with a focus on equality and diversity. The group's remit is to address under-representation in apprenticeships; supporting improved access and participation.

Standards and Frameworks Group

A technical group which will ensure that supporting structures are developed and maintained and contribute to an effective apprenticeship system in Scotland. The setup of the Advisory Board comes at an important time for apprenticeships with the introduction of the levy from April 2017. SAAB will play a key role in advising on the use and fulfilment of the levy in Scotland which meets industry demand.

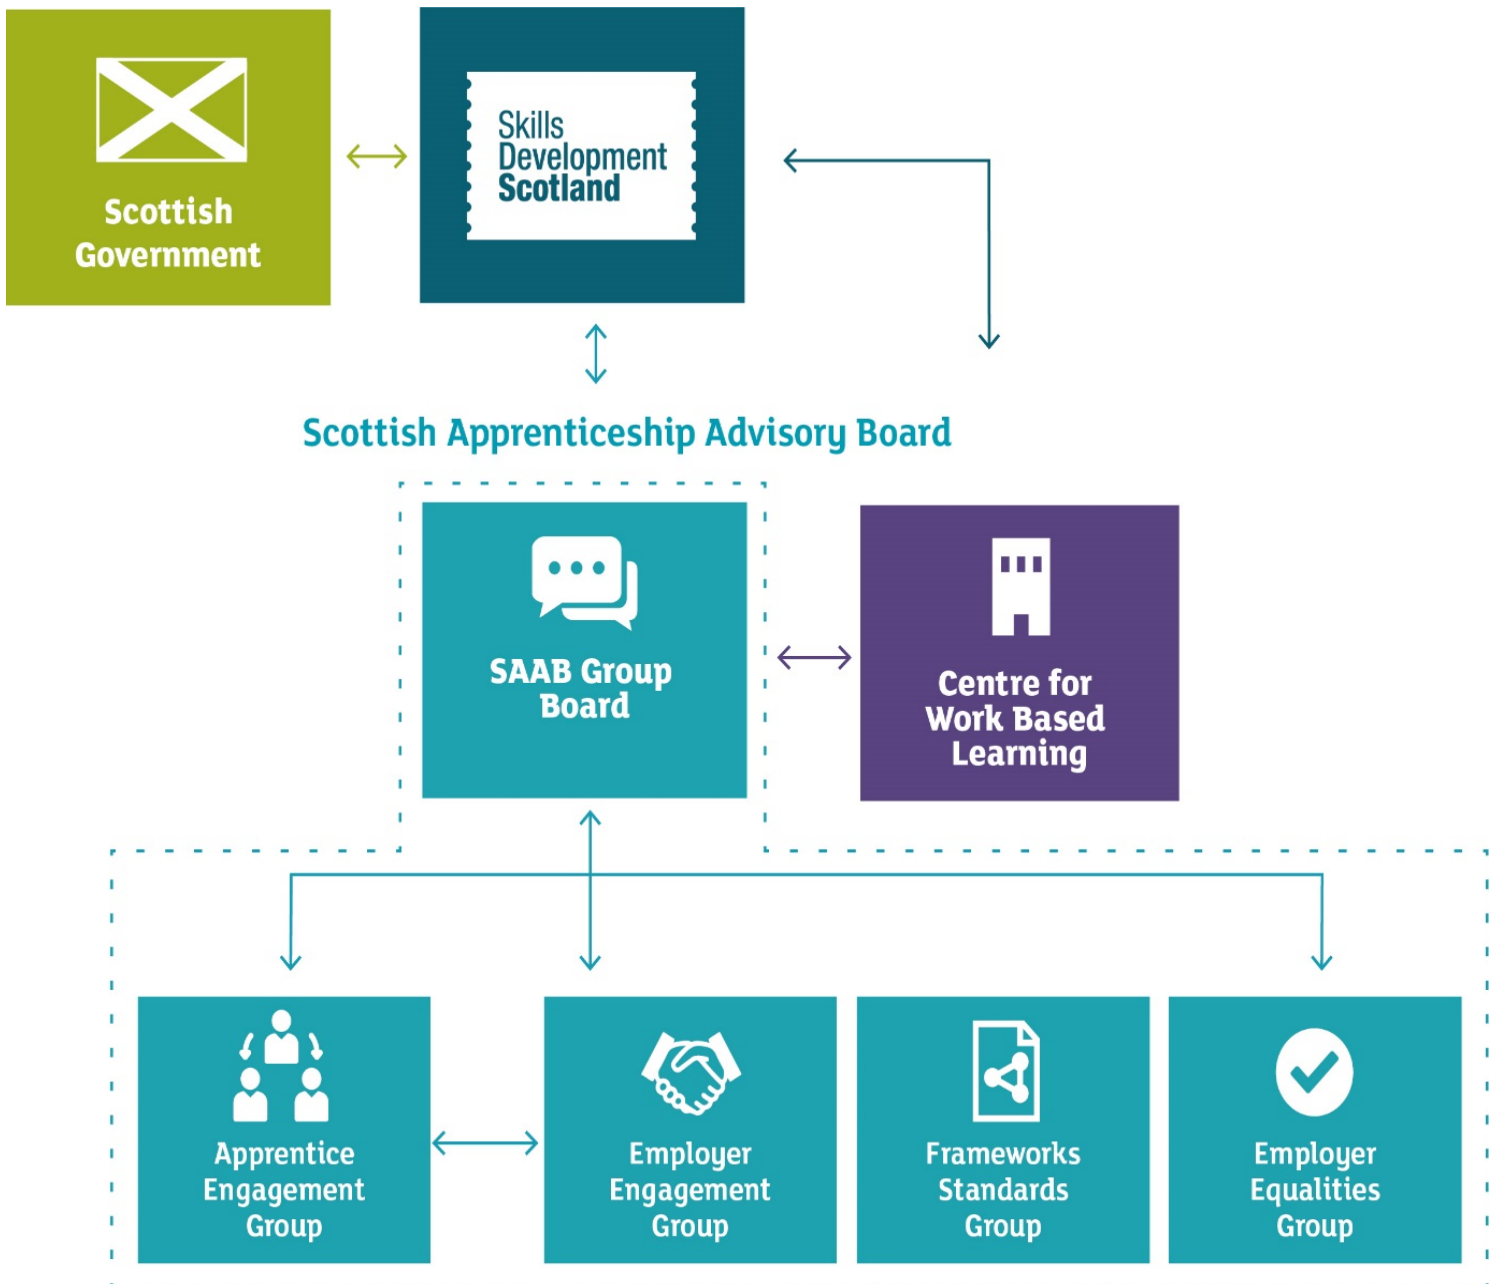

Apprenticeship Engagement Group

Working with employers through SAAB, the Group will take on an ambassadorial role and be the face of apprenticeships in the Scottish apprenticeship system. They will communicate the benefits of Modern Apprenticeships and the expansion of Foundation and Graduate Level Apprenticeships to young people, employers, parents and other stakeholders.
