

REDUNDANCY SUPPORT

TAYSIDE

Local Council Services

Your local council works closely with companies at the intervention stages to help combat company difficulties, thus minimising the risk of redundancy. It also works with key partners and companies, as determined by each redundancy situation, to help alleviate the effects on an individual should redundancy be unavoidable.

Each of the three Tayside councils delivers a wide range of services for people facing the prospect of unemployment. In the event of redundancy all three will endeavour to provide or guide an individual to the most appropriate agency to help with:

Housing; employment access and training; adult and community education; jobs and social work services and benefit advice.
