Adopt an Apprentice

[Adopt an Apprentice](#) is a Scottish Government initiative introduced to support Modern and Graduate Apprentices that have lost their job due to redundancy. The programme allows redundant apprentices to complete their training with an alternative provider.

From 13th October 2020 to 28th October 2021 the initiative offered £5,000 as an incentive to employers to employ Modern and Graduate Apprentices, who had been made redundant.

The Adopt an Apprentice grant reverted to what it was pre-pandemic, as of Friday 29th October (£2,000 as standard and £5,000 for Oil and Gas).

High level figures for quarter 2 are included in table 1.
